DETAILED ACTION

1. This communication is in response to amendment filed 5/2/2005.

Response to Amendment

2. Claims 1, 7-9, 11 and 15 have been amended and new claims 17-21 have been added.

Election/Restrictions

3. Newly submitted claims 1, 7-9, 11, 15 and 17-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Under the statute an application may properly be required to be restricted to one of two or more claimed inventions only if they are able to support separate patents and they are either independent (MPEP § 806.04 - § 806.04(i)) or distinct (MPEP § 806.05 - §806.05(i)).

In the instant case the originally claimed invention (refer to originally presented claims 1-16 were directed to a manual and/or computer implemented method for facilitating procurement of goods and services. Although these claims recited computer implementation, (although not recited as such at least one step

Art Unit: 3624

of the method would have rendered the claimed invention "computer implemented") the originally presented claims failed to recite any of the presently claimed process steps as being automatically performed. In other words the newly presented claims recite inventions which are distinct for at least the reason that all method steps are automatically performed and that the scope of processes so recited are non-obvious variations from those recited in the original claims. As an example, at least "automatically providing a virtual procurement folder including a plurality of data fields corresponding, to a plurality of states in a sequential flow" AND "automatically completing procurement items associated with a respective state.." are patentably distinct feature of the newly presented claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1, 7-9, 11, 15 and 17-21 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Art Unit: 3624

Conclusion

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
